

“Hi Liane! Bolt (Joy & Skyes pup) is the most wonderful dog. He’s a great guard dog, not letting just anyone come up the stairs of our house. He’s also warned me a few times on mountain walks of snakes and warned weird people away. He loves my surfer husband Patrick and sits by him whenever he can. He is a huge comfort to our kids who love to hug him as he closes his eyes in happiness. He is incredibly smart and often think he would’ve been a sensational police dog or guide dog... but so happy he is ours! If you have recent pictures of his parents we would love to see them. They get a mountain and beach walk everyday! Thank you for this wonderful boy. ♥

We have scored big time with Bolt and believe we have a true beauty & brains combo! I have started to look to him for signs as I often walk alone during the week and he’s sometimes sat in the middle of my path and won’t let me carry on and as soon as I turn around he sprints in approval. He sees things that I cannot and my other two dogs don’t pick up. Amazing.”
